

Brigadoon New Resident Information Request

Please print the following information to be placed in our Brigadoon database. This database is maintained to keep record of birthdays, and anniversaries, which are announced at our monthly meetings. We also ask about your interests and talents so perhaps you can connect with a neighbor who enjoys the same. We use the email to send out meeting reminders and other important information that may come about between meetings, for the good of all. The database is emailed to all Brigadoonians once a month, so each neighbor may utilize this information. The database is not shared beyond Brigadoon, by any resident, in any manner.
